Note:

Not all product offerings are on the website. Summittech can source and procure many components including active and passive electronic components, mechanical components, and plastic and metal parts. Summittech deals exclusively with established world-class certified suppliers in Taiwan, China, Japan and US.

Just give us your specs and let us do the rest. We can handle all the details of procurement, shipping and customs. We even provide buffer stock warehousing in Reno, NV; Watertown, SD; and Linden, NJ so you can pull inventory when you need it.
